

Fit it & Forget it

Why people prefer
an A. O. Smith water heater...

EWSH: Available in 15 & 25 Litre Capacities

QUALITY

American technology that ensures you have a water heater that works in Indian water conditions.

RELIABILITY

Heating technology that will always give you hot water... Guaranteed!

PREMIUM

Our new innovative solutions are often copied but never equalled.

ENERGY SAVING

Saves time.
Saves energy.
Saves money.

INNOVATIVE

Double Coated Glass-Lined Tanks.
Glass Coated Elements.

EXCELLENT SERVICE

Guaranteed Service within 24 hours.
Call: 1800.103.2468

In 1936, A. O. Smith developed and patented a process to glass-line water heaters. Over the years, A. O. Smith has gained the respect and support of homeowners, contractors, architects, and specifying engineers in over 60 countries by providing innovative energy efficient products designed for years of trouble-free service.

Today, A. O. Smith Water Products Company, one of the largest water heater manufacturers in the world, is a global leader in innovative technology and energy efficient solutions.

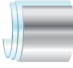

AOSmith™

A. O. Smith is India's first glass-lined electric water heater manufacturer. Our cutting edge "Glass-Lining" technology prevents sediment scaling and corrosion, thereby prolonging the life of the water heater. The EWSH range comes in 15 and 25 litre capacities. Ergonomically and aesthetically designed with floor and wall mounting option, our water heaters go well where your bathroom ceiling is low or you have a false ceiling or an attic, to meet your complete bathroom needs.

KEY FEATURES OF A. O. SMITH EWSH 15, 25 LITRE WATER HEATERS

KEY FEATURES

BENEFITS

	GLASS COATED HEATING ELEMENT	Scale and sediment build-up on the surface of standard elements lead to premature failure. An A. O. Smith Glass Coated Element helps to prevent scale formation on the element extending the life of the element.
	DOUBLE COATED GLASS LINING	Double coating of the glass lining increases glass thickness and ensures good glass coverage, thus reducing the risk of tank steel corrosion.
	TEMPERATURE CONTROL KNOB	The Temperature Control Knob allows you to set the temperature precisely and between 25°C and 75°C.
	4 IN 1 SAFETY VALVE	This water heater has a pressure safety valve. This valve is designed to automatically relieve and discharge water in-case the pressure overshoots the preset limits. The non-return valve allows water flow only in one direction thus preventing dry heating of element. Drain function enables to empty the tank without dismantling the water heater
	THERMAL CUTOUT	In case a fault occurs and the water temperature exceeds the highest preset temperature on the thermostat, the breaker rapidly cuts off the live line and the zero line simultaneously to guarantee safety.
	4 YEARS EXTENDED WARRANTY*	The tank carries a 7 year warranty. The heating element has a 2 year warranty that can be extended to 4 years if registered within the first 2 months of purchase. All other parts carry a 2 year warranty.

*Above warranty applies only if the water heater is purchased from our authorised dealer.

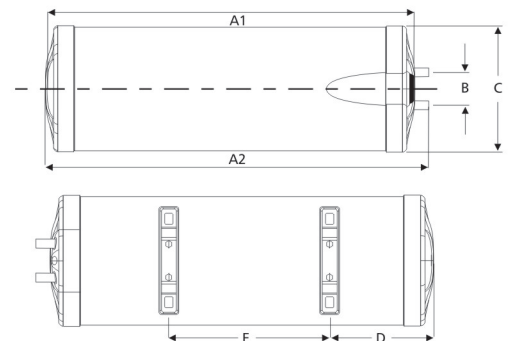

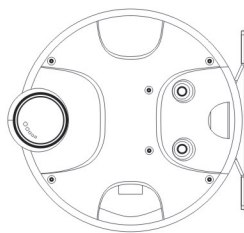

SPECIFICATIONS

MODEL	EWSH 15	EWSH 25
Volume (L)	15	25
Power (W)	2000	2000
Voltage/Frequency (V/Hz)	230~/50	230~/50
Actual Standing Loss (kwh/24h/45°C diff.)	0.525	0.672
Maximum Standing Loss (kwh/24h/45°C diff.)	1.138	1.386
Re-heating Time for 35°C rise (in min)	20	35
Temperature range (°C)	25~75±5	25~75±5
Rated water pressure (Bar)	8	8

A. O. Smith reserves the right to make product changes or improvements at any time without prior notice.

DIMENSIONS AND PARTS

MODEL	EWSH 15	EWSH 25
A1 [mm]	628	908
A2 [mm]	641	921
B [mm]	80	80
C [mm]	310	310
D [mm]	167	247
E [mm]	260	380
